Work Experience

UI DESIGNER

The Upside Geeks

Leverage UI/UX design and development experience to deliver full site designs and redesigns. Design and redesign landing pages. Deliver completely interactive Figma prototypes of conceptual site designs. Collaborate closely with the project manager, CEO, and developer(s) throughout the entire design and development process. Create interactive and intuitive Figma components to convey user interactions.

UX/UI DESIGN CONSULTANT

EZDirectLoans

Provided valuable UX best practice information. Streamlined flow of data between landing page form and API. Designed a rate menu for site visitors to quickly gather loan information.

WORDPRESS DEVELOPER

Austintatious Designs

Designed and developed high performing WordPress websites for Austintatious Design's nonprofit clients. Worked closely with CEO and client to provide site optimizations and iterations.
